

RAMARAJU UDIMUDI

UI/UX Designer | Product Designer | Web Designer

Hyderabad, India | +91 9010725501 | ramarajuudimudi0@gmail.com | [linkedin.com/in/udimudi-ramaraju-875a04357](https://www.linkedin.com/in/udimudi-ramaraju-875a04357)

PROFESSIONAL SUMMARY

Results-driven UI/UX and Product Designer with 3.5+ years of experience (including internship) designing intuitive, accessible, and visually compelling digital products for mobile and web platforms. Skilled across the end-to-end design lifecycle — user research, wireframing, information architecture, high-fidelity prototyping, and front-end implementation. Proficient in Figma, Adobe XD, HTML5, CSS3, Bootstrap, and Angular (PrimeNG, PrimeFlex). Experienced delivering enterprise, healthcare, and consumer applications with measurable improvements in user experience, design consistency, and development efficiency. Strong cross-functional collaborator in Agile environments, translating complex user needs into clean, conversion-focused interfaces with pixel-perfect delivery.

CORE SKILLS

Design Tools: Figma, Adobe XD, Adobe Photoshop, Adobe Illustrator, Draw.io

UX Methods: User Research, Wireframing, Prototyping, User Flows, Information Architecture, Usability Testing, Design Thinking

Interaction & Visual Design: Interaction Design, Visual Design, Mobile App Design, Dashboard Design, Responsive Web Design

Design Systems: Component Libraries, Style Guides, Design Tokens, Developer Handoff

Front-End Development: HTML5, CSS3, Bootstrap, Angular, PrimeNG, PrimeFlex

Accessibility: WCAG 2.1 Guidelines, Inclusive Design, Cross-Device QA, Cross-Browser Testing

Collaboration & Process: Agile/Scrum, Cross-Functional Teams, Stakeholder Presentations, Developer Collaboration

Graphic & Brand Design: Logo Design, Brand Identity, Typography, Print Design, Social Media Creatives

PROFESSIONAL EXPERIENCE

UI/UX Design Intern, 9Arts Media

Oct 2022 – Mar 2023

- Designed responsive websites and mobile application interfaces using Figma, delivering polished prototypes aligned with business requirements and user goals.
- Developed detailed user flows, wireframes, mockups, and interactive prototypes, translating product requirements into clear, testable design artifacts.
- Collaborated closely with development teams to ensure pixel-perfect implementation of approved designs, reducing revision cycles through proactive developer handoff documentation.
- Iterated on designs based on user feedback and usability findings, applying design thinking principles to improve interface usability and task completion rates.
- Built and maintained reusable design components and enforced design consistency standards, improving team efficiency and design system adoption.
- Participated in client discovery meetings and collaborated with senior designers to align design solutions with client objectives and brand guidelines.

UI/UX Designer & Web Designer, Suvarna Technosoft Pvt. Ltd.

Apr 2023 – Present

HIMS – Hospital Information Management System (Figma, HTML5, Bootstrap)

- Led end-to-end UI/UX design for a large-scale hospital management system, producing 60+ screens spanning patient registration, appointment scheduling, billing, and reporting modules.
- Designed responsive, WCAG 2.1-compliant dashboards for clinical and administrative staff, improving workflow efficiency and real-time data visibility.
- Established and maintained a unified design language and component library across all modules, ensuring visual consistency throughout the product lifecycle.

- Collaborated with a cross-functional team of developers, QA engineers, and stakeholders to deliver all modules on schedule and to exact specification.

DICOM – Responsive Web Application (HTML5, CSS3, Bootstrap, Figma, Adobe XD)

- Architected and built fully responsive web interfaces using HTML5, CSS3, and Bootstrap, achieving cross-browser compatibility across Chrome, Firefox, Safari, and Edge.
- Designed high-fidelity mockups and interactive prototypes in Figma and Adobe XD, serving as the single source of truth for the engineering team throughout development.
- Developed and documented a reusable UI component library and comprehensive style guide, reducing front-end development time for new feature iterations.

MRRCH – Enterprise Responsive Web Application (Angular, PrimeNG, PrimeFlex)

- Designed and implemented modular, responsive UI components using PrimeFlex utility classes and the PrimeNG Angular component library, ensuring scalability and maintainability.
- Conducted cross-device and cross-browser QA testing to guarantee consistent rendering across desktop, tablet, and mobile viewports.
- Partnered with back-end developers to ensure seamless front-end and API integration, achieving zero UI-breaking regressions across all release cycles.

Intalk – Consumer Mobile Application (Figma)

- Designed end-to-end UX for the Intalk consumer mobile app, creating 40+ screens covering onboarding, real-time messaging, and profile management flows.
- Developed user flows, wireframes, and interactive prototypes that reduced developer clarification cycles by establishing clear, unambiguous interaction patterns.
- Partnered with engineering teams during implementation reviews to ensure 100% design-spec adherence and pixel-perfect delivery.

Fontana Pharmacy – Healthcare Mobile Application (Figma)

- Designed an intuitive customer-facing mobile app UI for a pharmacy platform, optimizing prescription ordering and refill workflows to minimize user effort and drop-off.
- Produced detailed wireframes and click-through prototypes for stakeholder presentations, accelerating design sign-off and reducing review cycle time.
- Maintained a consistent component library across all screens, reducing design inconsistency and speeding up feature iteration velocity.

Brand & Visual Design (All Projects)

- Designed logos, custom icons, banners, and UI assets for web and mobile applications, maintaining cohesive brand identity across all digital touchpoints.
- Produced social media creatives, brochures, flyers, and print collateral for internal and client-facing marketing campaigns.
- Researched and applied current UI/UX trends, accessibility best practices (WCAG), and interaction design principles to all project deliverables.

TECHNICAL SKILLS

Design & Prototyping: Figma, Adobe XD, Adobe Photoshop, Adobe Illustrator, Draw.io

Front-End Technologies: HTML5, CSS3, Bootstrap 4/5, Angular, PrimeNG, PrimeFlex

UX Methodologies: Design Thinking, User Research, Wireframing, Prototyping, Usability Testing, Information Architecture

Design Systems: Component Libraries, Design Tokens, Style Guides, Developer Handoff

Accessibility Standards: WCAG 2.1, Inclusive Design, Responsive Web Design, Cross-Device Testing

Collaboration Tools: Agile/Scrum, Cross-Functional Teamwork, Stakeholder Communication

EDUCATION

Bachelor's Degree — Ushodaya Degree College, Chodavaram, Andhra Pradesh, India (Graduated: June 2022)

LANGUAGES

Telugu (Native) | English (Professional Working Proficiency)
