Trusted by 50,000+ teams worldwide

Core Features

Everything You Need to Stay Productive

Powerful tools designed for modern teams — from solo freelancers to enterprise organizations.

Task Management

Create, assign, and prioritize tasks with deadlines, labels, and custom fields. Keep every project on track effortlessly.

[Learn more](#)

Team Collaboration

Work together in real-time. Assign tasks, mention teammates, share updates, and collaborate without friction.

[Learn more](#)

Project Tracking

Visualize progress with Kanban boards, Gantt charts, and burndown reports. Stay ahead of every deadline.

[Learn more](#)

Calendar View

See all tasks and milestones on a unified calendar. Schedule meetings, set reminders, and plan sprints visually.

[Learn more](#)

Real-Time Notifications

Stay informed instantly. Get notified about comments, mentions, task updates, and deadline reminders.

[Learn more](#)

File Sharing

Attach documents, images, and assets directly to tasks. Keep all project files organized in one secure place.

Simple Process

Get Started in Minutes

Three simple steps to transform how your team works together.

1

Step 1

Create Projects

Set up your workspace in seconds. Invite your team, define goals, and organize work into projects and boards.

2

Step 2

Assign Tasks

Break projects into actionable tasks. Assign owners, set due dates, add priorities, and attach relevant files.

3

Step 3

Create Projects

Monitor everything with real-time dashboards. Celebrate wins, spot blockers early, and keep momentum going.

Collaboration

Collaborate Without Limits

Team Chat

Threaded conversations tied directly to tasks and projects. Context always within reach.

User Mentions

Mention any teammate with @name to loop them in instantly. Never miss a thing.

Shared Workspaces

Create dedicated spaces per team, client, or project. Full access control included.

Real-Time Activity Feed

See what your team is working on as it happens with a live audit trail.

Testimonials

What Customers Say

Real teams, real results. Here's what they're saying about TaskFlow.

★★★★★

TaskFlow completely transformed how our engineering team ships features. We went from chaotic to coordinated in under a week. The real-time sync is genuinely magic

AR

Aisha Mitchell
VP Engineering · Vercel

★★★★★

We manage 12 client projects simultaneously. TaskFlow keeps everything organized and our clients love the shared workspace feature. Total game-changer for our agency.

DR

Daniel Rivera
CEO · Pixel Studio

★★★★★

Switched from Jira and never looked back. TaskFlow is faster, more intuitive, and our team actually enjoys using it. Productivity jumped 40% in the first month.
